## LA CROSSE TAKES DOUBLE VICTORY

DUBUQUE CANNOT STAND WITH PINK'S AGGREGATION

## SUNDAY'S SCORE 15 TO 0

Eberly Does Wonderful Work in the Box While the Dubuque Pitchers are Easy for La Crosse

With better baseball weather yesterday the Regulars trimmed the Dubuque team for the second time to the tune of 15 to 0. The Dubuques were less fortunate than in Saturday's game, having to be satisfied with getting a man to third base.

La Crosse started from the call of batter up in the first inning and kept up the scoring until the end of the eighth inning, when 15 men had crossed the plate. Monaghan proved no more effective than Keller or Pauley in the Saturday game. He was hit at will and a total of 15 hits taken from his delivery.

Eberly was at ease throughout the entire game. In the ninth inning he allowed one hit and another scratch hit, giving a total of two hits for the game. In the fifth inning on an error by Bues, one of the Dubuque men reached third, but only for a minute as Eberly, furiously ended the inning in short order. Every La Crosse man with the exception of Du Chien and Love peppered the ball. Hastings getting the better of the argument with four hits in five times at bat. Graves took three in six times up. Monaghan was evidently afraid of Hastings as he walked him three times. The score:

**Saturday's Game.**  
Owing to the chilly winds that prevailed Saturday, very few people turned out to see the Colts trim a team from Dubuque to the score of 19 to 1. Naturally the cold weather had its effect on the players, too, for they "monkeyed" all through the game. The Colts did anyway, as they were forced to hit the ball far and often to keep the chill off.

It looked like a game through the first inning, when Keller allowed but four men to take the plate, but during the next inning there was nothing but dust and when that cleared the score board tender was piling numbers on top of each other to bring a total of nine. During the next inning they took a rest and then hit and run again for a total of five more.

The fifth inning opened with Pauley substituting Keller in the box for Dubuque, but the scores kept rolling in and at the end of the eighth inning the score board registered 19 scores.

Dubuque was less fortunate. They were able to hit the ball frequently, but there was always a Colt there to pull it down. During the last of the ninth Eberly joined the Dubuque team and allowed a foul ball to go as a foul one. The Colts rather threw up the sponge for a few minutes and when the smoke cleared away Dubuque had a man across the plate. The score:

## STATE LEAGUE TO OPEN UP THURSDAY

CHARLES MOLL MAKES PREDICTION OF GREAT SEASON

## PRESIDENT AT FREEPORT

League's Chief Executive to Attend Pennant Raising Ceremonies in Illinois Town

## • PRES. MOLL'S STATEMENT. •

The season of 1908, which will open on Thursday, promises to be the best in the history of the Wisconsin-Illinois league.

The league shows considerable more strength than last year and the teams are more evenly balanced, insuring a closer pennant race. Recent games against outside teams have demonstrated that the league is equal in playing strength to higher class organizations.

We have obtained a strong staff of umpires and will support them to the fullest extent. Rowdiness will not be tolerated, but progressive, snappy baseball will be encouraged.

The business men of the eight cities comprising the league have promised their hearty support and will take an active interest in their respective teams.

Several games will be played in Milwaukee when the Brewers are away, so that local fans may get an idea of the strength of the league.

With all teams on edge as the result of hard training during from two to six weeks' practice, the Wisconsin-Illinois league will open its season next Thursday, with Fond du Lac playing at La Crosse, Wausau at Rockford, Oshkosh at Madison, and Green Bay at Freeport. The opening will be made a civic event in all the cities, a half day's holiday being granted by business houses. President Moll will attend the ceremonies at Freeport where the pennant will be hoisted.

Many new faces will be seen on all the teams this year, and some will be almost entirely transformed, making it difficult to forecast the comparative strength. In general, however, there should be a better balance of playing strength than last year because the first division teams of 1907 lost most of their stars through the draft, or by sale to higher class leagues. Certain features of the 1908 clubs have, however, been revealed in practice and the fans in the eight cities have been following the "dope" closely and making calculations on the strength of each team.

Freeport, the champion in a hot finish with Wausau in 1907, will lose the most formidable part of its winning combination of last year, the almost invincible pitching of Warhop. In 1907 Warhop pitched thirty-six games, winning thirty, besides going to the rescue and saving a number of other games when the pitchers were in distress. It is impossible to replace Warhop, who is probably the best pitcher the state league ever had, still the champions will go into the field with another strong team prepared to battle for another flag. Outlets of the box that will be only one change in the lineup and the advantage of playing together another season will have to be reckoned with. This team is strong all the way through, both in fielding and hitting, but will not have the pre-eminence in the box it had last year. One of the strongest features of the Freeport club in figuring on its pennant possibilities, is the loyal support it receives from its local fans and the spirit animating the management which impels it never to overlook a chance to strengthen.

## Wausau Looks Strong

Wausau, which lost last year's championship only by a game and a half, looks more dangerous this year than ever, despite the fact that it suffered heavily by the draft and through sales and will start the season with an entire new list of pitchers. This team is strong in the catching department, at first, second and third and in the outfield and on last year's figures is the hardest hitting team in the league. All its pitchers are new, but they look

classy. If the pitching staff is up to expectations, Wausau will give all the other clubs a merry race all the way. A tower of strength on this team is the manager, Ferguson, an old American association man, who has splendid success in picking his men.

La Crosse, the champions of the first two seasons and the leaders for more than half the distance last year, will begin the season with a team scarcely recognizable as the old champions. Not to exceed three men who were with the club a year ago will be on the team when the season starts, and possibly only one man will be retained. The club has had the advantage of a larger and classier squad to pick from than it ever had before. So many good men are here that even the experienced eye of Manager Pink Hawley is having difficulty in determining which are the better. It is assured, however, that La Crosse will put into the field next Thursday a faster team than ever represented the city before and it is figured at La Crosse that its chances are as good as those of any other team with the possible exception of Wausau. The former champions will have an exceptionally strong pitching staff, will be strong behind the bat, will be fast in the infield and good in the outfield. If they show even moderate batting strength, they will be a hard team to beat.

## Rockford an Experiment

Rockford, which succeeded Eau Claire, the other first division team of 1907, is an experiment. It is not counting on a championship team the first year, but it has a number of good men and should gain in playing strength steadily during the year as the management becomes more and more familiar with the strength of the other teams. Rockford is in the league to stay and is counting on working its way to the championship, if not this year, then in 1909. The tidy manner in which the new club disposed of some of the best in the three I league in practice games indicates that it will be stronger, even at the start, than first imagined.

The strong Oshkosh team of last season has been shaken up considerably and strengthened by Manager Bubser. Bubser has been trying out a lot of young men and it is the opinion of those who have watched the tryout that Oshkosh is due to advance this year. Speed and aggressive work will be characteristic of this team.

If Madison falls to go higher this year, it will be through no fault of the management, which has spent several months seeking out new material. It has finally gobbled together what is expected to be one of the strongest combinations in the league. The pitching staff has been strengthened by the addition of one of the best boxmen in the Iowa league and one of the best in the Lake Shore league, while advantageous deals were made with Eau Claire and Fond du Lac. Experiments are being made in a couple of positions in the infield, but otherwise the team looks to be as good as there is going in class C leagues.

Green Bay had a good team last year, one which should have finished higher than it did, and with the same manager who handled it during the latter part of last season it will have to be reckoned with. The team has a

fine lot of boxmen and is strong in all departments.

## Fond du Lac Has Hopes

Fond du Lac, the tailenders of last season, is pinning its hopes largely on Bobby Lynch. Last year at Eau Claire Lynch took the tailenders of the year before and finished in the first division. President Reinig is backing him up in his efforts to get a first division team. He has a half dozen first class infielders to pick from and a good outfield. The success of the effort to advance the team in the percentage column will depend largely upon the bracing up of the pitching staff.

The teams in each of the cities will be made up substantially as follows:

Freeport—Stark, catcher; Scott, Darrah, Forsythe, Evans, pitchers; Barlow, first base; Schoonhoven, second base; Fiske, shortstop; Herrod, third base; Driscoll

THE BARL GROWS.

It is announced with a great show of delight by the Johnson boomers that Saturday 500,000 letters were mailed to the democrats "down south" in a last effort to secure the nomination of the Minnesota Governor to head the democratic national ticket.

At two cents each for stamps this cost SOMEBODY \$10,000. Add a half cent each for the literature, envelopes, etc., and the total expense for Saturday was \$12,500 for this stunt alone.

Who pays the freight?

In every mail there comes new evidence of a widespread use of money in support of Johnson. From all the "publicity bureaus" which are devoted to commercial dissemination of "news matter," there are coming "free" stories to the newspapers, "boosting" Johnson. The American Press and Kellogg newspaper plate companies continue to urge newspapers to send for a "Johnson paper," which may be had in "plate or matrices," and which will come "free, express prepaid." This means thousands of dollars. All told, it means more money than Governor Johnson could possibly muster, excepting through the assistance of powerful and wealthy backers. Do these backers want him to be president? Why would they pay a few hundred thousands of dollars to elect some particular man as president? Not men who really want Gov. Johnson to be president, but men who want him to block the nomination of Bryan in order to make possible the nomination of some man they DO want. That is, this is true if it is that Gov. Johnson is "as right as a golden guinea."

THE LATEST LEGAL COUP.

That there is no need to go outside of congress to find men who, as agents of dishonest enterprise, are enemies of the public which sends them to office, is well illustrated by the recent program attempted in congress. Laws authorizing prosecutions of the great financial wrongdoers have become effective, the next step of these classes is to make them inoperative by striking a blow at the instruments of their enforcement. The latest coup of this sort is a scheme to cripple the department of justice in an essential branch—

monstrous proceeding upon the part of men who, by grace of public election, write "Hon." before their names:

"In view of the attitude of the appropriations committee of the house toward the interstate commerce commission, which was developed so sharply this week that President Roosevelt found it necessary to take a hand in administering a rebuke to that great organ of the house, renewed attention has been called to another extraordinary performance of the same committee, which also seems to have been dictated by a distinct desire to embarrass the government and to prevent the prosecution of evildoers."

"The president showed that the withholding of an appropriation from the interstate commerce commission for the appointment of examiners would result in crippling that branch of the government service so that dishonest railroad officials would continue to defy the law."

"In the same bill the appropriations committee went out of its way to insert an extraordinary provision which, it is now charged, was dictated by a powerful ring responsible for astounding land frauds in the west states."

"The appropriations committee, for some mysterious reason, was persuaded to put into the sundry civil appropriation bill a limitation on the activity of secret service agents of the government which could have no plausible excuse except to embarrass the prosecution of criminals against the United States government."

"After a remarkable hearing the appropriations committee inserted in the sundry civil bill a peculiar amendment, as a result of which it was provided that if an agent of the secret service should be detailed, furnished, loaned, or permitted in any other way to work for any other department of the government, he could not be restored to his former position inside of two years."

"An absurd attempt was made to show that certain agents of the secret service had been detailed in divorce cases and similar proceedings. No evidence of this character was produced before the committee, and yet this peculiar section was adopted in such a way as to make it evident that a great deal was behind it."

"Tonight one of the law officers of the government explained the situation."

"If that paragraph is enacted into a law," he said, "it will paralyze the department of justice. It is a vicious legislation of the most extraordinary kind, and it would be a disgrace to congress and the United States to have such a thing go on the statute books."

The confidently expected information regarding the distinguished greatness of the members of the park board duly made its appearance Sunday morning, and while it is not presumable that these gentlemen were lacking in appreciation of some degree of importance and influence, it is doubtful that they fully realized upon what pinnacles of superlative power and capability they perched until Slimper Rolfe gushingly acquainted them with the fact. It is one of the penalties of ordinary respectability and financial standing hereabout to be made the subject of flattery so fulsome and insincere as to challenge the resentment of victims thus by inference paraded before the public as men so glib as to "bite" on bait which would be rejected with contempt by the most indiscriminate of "suckers."

This sort of May weather makes one wonder if some of our influential German friends have been serenading the weather observer with the good old ditty:

"Winter ade Schelden that weh!"

The county agricultural school is to be made an institution of great importance in this locality, and we hope to see it given harmonious and earnest support in all parts of the county.

The popular song, "It's Moo-o-o-ovin' Day!" promises to enjoy a run of about thirty days in this city.

Trim up the trees. The trees need it, and your boulevard will be the prettier for it. Beside, "ye gotter do it."

THE LEADER LA FOLLETTE IS.

(Free Press.)

The North American Review has a symposium entitled: "The Claims of the Candidates"; in which Prof. John R. Commons of Wisconsin state university, writing of Senator La Follette, says:

"A great political leader, in the struggle now on to redeem representative government, is one who profoundly understands the economic and political principles involved, and is endowed with the power to point the way out. He must understand that organized control of transportation and industry and finance in the end means absolute industrial and commercial servitude for the citizen, and that, in the end, means political servitude. He must understand that there can be no 'good' combinations for the creation of monopoly, to be legalized by undermining the Sherman anti-trust law with misleading amendments. He must believe, with all the fervor of our fathers, in equal opportunity for man, weak or strong, and for capital, big or little. He must have determination and aggressiveness, and the resourcefulness that comes from a long campaign in fighting for what the awakened intelligence of the people demands. He must refuse compromise. There is no middle ground. He must have the sense of justice that is not moved by the spirit of retaliation. He must have confidence in democratic institutions and willingness to subordinate himself to those institutions. La Follette is that kind of a leader."

SPOTLIGHTS

Dr. and Mrs. Herbert L. Flint, the hypnotists, arrived in La Crosse this morning, from South Bend, Ind., where they enjoyed a run of phenomenal business.

Dr. Flint is the same jovial soul as of yore and seems to have changed but little since his last appearance here, except that he has put on a few extra pounds to his weight. Mrs. Flint, for the first time in years, is enjoying perfect health, and in spite of the fact that she has just gone through a long and strenuous session, she looks more girlish and charming than ever.

Both the Flints are enthusiastic over the beauties of the territory surrounding La Crosse, and Mrs. Flint says that she shall do nothing else but sit at her hotel window and gaze at the river and the mountains which remind her so much of the beautiful valley in which she was born in Connecticut.

The Flints will open an engagement at the La Crosse theater this evening, with a program that will be one long laugh from start to finish. At the close of the performance a huge rock that has been on exhibition in front of the theater will be broken upon the body of a hypnotized subject.

The popular hypnotists will be here all the week and there will be an entire change of program every evening.

I sighed: "I'll bridge it, partnerine."

"Then play to hearts!" snapped she.

And then I scanned my cards anew, And deeper grew my dumps—

For now I saw—O law! O law! I had a sneak in trumps.

A tear bedimmed my sky-blue eye, A gloom besieged my mind,

My cheeks grew white, both left and right.

My neck grew white behind.

"Of all the hands in all the lands On which a steamer bumps."

Thought I, "I loathe the most, on oath,

A puny sneak in trumps."

Most sad and blue, I played it through,

Ah, well—they slammed us (grand)—

And, as I feared, my partner sneered:

"Well, you did ball your hand!"

"My hand!" I said, and grew quite red,

And glowered on the chumps—

"Well, as it panned, I had no hand, Beyond my sneak in trumps."

One on the Professor

The scholarly William E. Byerly, professor of mathematics at Harvard, was once asked by a student to develop a retentive memory. The professor answered that ordinary mental exercise was sufficient to secure a good memory, whereas the student asked if he might test the mental capacity of his instructor. Prof. Byerly agreed, and the student asked him to listen to and remember several varied items for a test. He began:

"One quart of whiskey."

"Um!" said the professor.

"Six pounds of sugar, a pint of

sour milk, three onions, half a gal-

lon of molasses, and two raw eggs."

"Um!" said the professor.

"Two green apples, twenty-six

peanuts, one and a half cucumbers,

and four mince pies."

"Um!" said the professor.

"A package of starch, sixty-seven

cakes of yeast, and the skins of seven

bananas. Got that down?"

"Yes," answered Dr. Byerly.

"How does it taste?" asked the

student.—Boston Herald.

5972 Blouse with Chemisette,  
22 to 40 bust.

The pretty and attractive blouse that closes at the front is always a youthful and satisfactory one and this model exceptionally charming, being made with a chemisette that gives a dainty touch. As illustrated it is made of a simple banding, while the chemisette is lace insertions sewed together. But this blouse can be utilized both for the separate one and for the gown and consequently becomes adapted to almost every seasonable material of the simpler sort. The chemisette can be made of insertion, as in this instance, all-over embroidery or all-over lace or of inserted tucking, indeed, of any pretty material that may be liked, while for the trimming can be used bands of a contrasting fabric or one of the many braids that are offered ready for use.

The blouse is made with the fronts, back and center front. It is tucked on becoming lines and the closing is made invisibly beneath the left edge of the center front. The chemisette is separate and arranged under it and closes at the back while the prettily shaped collar finishes the neck of the blouse. It is gathered at the lower edge and pointed to a basque portion, which does away with fullness over the hips. The sleeves are simply full ones that are gathered into cuffs and finished with roll-over bands.

The quantity of material required for the medium size is 4 3/4 yards 21 or 24, 3 3/4 yards 32 or 2 yards 44 inches wide with 3/4 yard 18 inches wide for the chemisette, 4 1/2 yards of banding.

The pattern 5972 is cut in sizes for a 32, 34, 36, 38 and 40 inch bust measure and will be mailed to any address by the Fashion Department of this paper on receipt of ten cents. (If in haste send an additional two-cent stamp for letter postage, which insures more prompt delivery.)

## JENKINS ON FOREST RESERVES

It is not often that a bill before congress attracts so much attention from so many people as that relating to the preservation of forests on the southern Appalachians and White mountains. The manufacturers, merchants and farmers of the state directly interested are as a unit in its favor and hosts of intelligent observers at a distance, anxious for the welfare of the industries of the country as a whole, are eager for its passage.

The action of the house judiciary committee in casting doubt upon the constitutionality of the bill is the result of a widespread disappointment. There is comfort to be derived from the fact that Judge Jenkins' view of the law may not be final and that his report when submitted to the house and there weighed in the balances may be found wanting. To some shrewd observers it looks as if his wishes in the matter had unconsciously, of course, influenced his opinion and that it will not be difficult to prove that his interpretation of the word "invasion" is strained. The average layman certainly finds it difficult to understand how the United States can be said to invade the property of states by simply accepting from them the right to enter upon land for a specific purpose that will inure to the benefit of all concerned. It is greatly to be hoped that the New England members will continue to exert the utmost energy in season and out of season to impress upon their fellow legislators the importance attached by everyone in this section of the country to the measure and how great will be the chagrin should it fail to pass.—Boston Commercial Bulletin.

## OF PARK LANE

Jean Adams was an excellent judge of human nature. He had placed there a bait which could not fail to attract, if not today, then tomorrow—or the next day. He had gauged Max Barclay with a precision only given to those who live upon their wits.

To every rule there are, of course, exceptions. Every man who lives upon his wits is not altogether bad. Curious though it may be, there are many adventurers to be met with in every capital in Europe, who, though utterly unscrupulous, have in their nature one point of the most scrupulous honour—one point which redeems them from being classed as utter blackguards.

Many a man, who will stick at nothing where money can be made, is loyal, honest, and upright towards a woman; while another will with one hand swindle the wealthy, and with the other give charity to the poor. Few men indeed are altogether bad. Yet when they are, they are, alas! outsiders indeed.

Adams was a man who had no compunction where men were concerned, and very little when a woman stood in his way. His own adventures would have made one of the most interesting volumes ever written. Full of ingenuity and tact, fearless when it came to facing exposure, and light-hearted whenever the world smiled upon him, he was a marvelous admixture of good fellow and scoundrel.

He knew that his clever story had fascinated the man before him, and that it was only a question of time before he would fall into the net so cleverly spread.

"When do you anticipate you could go east—that is, providing I can get the matter postponed?" asked Adams at last, as he placed his cigarette end in the ash tray.

"I can't give you a date," replied Max. "It is quite uncertain. Why not go to somebody else?"

"I tell you I have no desire to do so, my dear friend," was the Frenchman's reply. "I like you. That is why I placed the business before you. I know, of course, there are a thousand men in the city who would only jump at this chance of such a big thing."

"Then why not go to them?" repeated Max, a little surprised and yet a little flattered.

"As I have told you, I would rather take you into partnership. We have already decided to do the thing on a sound business basis. Indeed, I went to my lawyers yesterday and gave orders for the agreement to be drawn up between us. You'll receive it tonight or tomorrow."

"Well," replied Max with some hesitation, "if it is to be done, it must be done later. At present I cannot get away. My place is in London."

"Beside the lady to whom you are so devoted, eh?" the Frenchman laughed.

Max was irritated by the man's veiled sarcasm.

"No. Because I have a duty to perform towards a friend, and even the temptation of a fortune shall not cause me to neglect it."

"A friend. Whom?"

"The matter is my own affair. It has nothing to do with our business," was Max's rather sharp response.

"Very well," said the other, quite unruffled. "I can only regret, I will wire tonight to Muhl Pasha, and endeavour to obtain a postponement of the agreement."

"As you wish," Max said, still angered at this importation of the woman he loved into the discussion.

"I may as well say that it is quite immaterial."

"To you it may be so. But I am not rich like yourself," the other said, "I have to obtain my income where I can by honest means, and this is a chance which I do not intend to lose. I look to you—hold you to your promise, Barclay—to assist me."

"I do not intend to break my promise. I merely say that I cannot

### NORTH SIDE BOAT MEN LAUNCH CRAFT

FIVE BOATS ARE PLACED IN THE WATER YESTERDAY

### DOCK PROPOSITION AGITATED

Likely That All North Side Boat Owners Will Join Motorboat Club and Make Petition to Council

With the opening of the boating season in La Crosse owners, both on the North and south sides are launching their boats. Yesterday, on the North side, four boats were put into the water by Andy Noel, Alex Knuteson, Archie Mosher, George Mosholder and George Kingsley.

The boat launched by Mr. Noel is a 20 foot 6 H. P. and is a neat appearing boat. Besides its appearance it also has speed and was cruising around Black river yesterday in an exciting manner.

Mr. Knuteson's boat is an 18 foot launch with a Grey engine. Mr. Knuteson's boat is named the "Mabel." Mr. Mosher's boat is a 20 foot pleasure launch and is known to all boat owners. The boat launched by Mr. Kingsley and which is used by him in "scouting" around the river, was launched Saturday, and is a 20 foot boat with a 3 H. P. Red Wing engine. The hull, which was built in Minneapolis, is of the turbine style. It has a concave stern, this being built in view of running in low water.

A number of North side boat owners are members of the La Crosse Motorboat club and a number of others have signified their intention of joining in order to get the privileges and protection enjoyed by the club members. There is talk among the North side of petitioning the council for a public landing for the North side and it will in all probability be brought up at the next meeting. One of the sites for the dock is at the foot of St. Cloud street. This does not meet with the favor of the majority, however, it being the claim that it is not centrally located. Another site that has been proposed, and which has met with the most favor is the place at the foot of Clinton street, near the bridge leading to French Island. This place is located so that it would be in reasonable distance for all launch enthusiasts and is generally conceded to be the best that can be obtained. Boat owners are also anxiously awaiting the starting, by the government, of the work of blowing out the old piles and clearing the Black river channel. Just when this is to be started is not known but in all probability it will be commenced some time in June.

### FAST GAME ON NORTH SIDE SUNDAY

In a fast game of ball Sunday afternoon on the Indian Hill diamond, the Ramblers, considered a fast team, was defeated by the La Crosse Peerless team. The score was 3 to 2.

The game was close throughout and both teams put up a fine exhibition of ball. The Peerless team bunched their hits off Schroeder while the Ramblers failed to touch Sloane, who was well supported.

The lineup for the two teams was as follows:

Peerless—Weber, c; Sloane, p; Will, 1b; Rice, 2b; Jahn, ss; Ambrose, 3b; O'Neill, lf; Kaveny, cf; Sommer, rf.

Ramblers—Blanchard, c; E. Schroeder, p; Burt Schroeder, 1b; Hafner, 2b; R. Schroeder, ss; Knuteson, 3b; Bristow, lf; Kaufman, cf; Grimes and Schweigert, rf.

The score by innings was:

R. H. E.  
Peerless . . . 000 100 20x—3 5 3  
Ramblers . . . 000 001 100—2 5 5

Umpires—Fischbach and Krueger.

### STREETS OF CITY RICH IN ORE

According to reports brought here by railroad men the streets of Savanna are veritable lead mines. It is claimed that large veins of the ore have been unearthed there and that streets are at a premium.

The following is an account of the "find" as told by the Savanna Times:

"A few days while blasting on Main street between Quincy and Division streets for the laying of the

northern district sewer Contractor Snell noticed a peculiar kind of rock. Noticing the same strata formation in a number of places he examined the quartz carefully and discovered it to be lead. Several of the samples have been saved for future reference. "The quartz is in such small quantities and the vein so thin that no commercial use can be made of the find but the indication shows the presence of the metal in this section and the time may come when large and more valuable deposits may be found."

### AGED WIDOW SUES FOR MILLIONS

WIDOW OF SOLDIER CLAIMS RIGHT TO BURT MINE

IT IS VALUED AT \$8,000,000

Burt Mine One of the Most Valuable Mines is to be Probed in the Duluth Courts

DULUTH, May 4.—Suit was filed in the district court Saturday by Mary A. Skinner, administratrix of the estate of John R. Skinner, deceased, against Wellington R. Burt and the Lake Superior Consolidated Iron Mines company, which involves the title to the Burt mine, one of the most valuable properties on the range, and estimated to be worth \$8,000,000.

The plaintiff claims that John R. Skinner served in the Union army during the war of the rebellion and that under a soldiers' additional land grant given him by reason of his honorable discharge, he filed on the east one-half of the northeast quarter of section 31 and northeast quarter of section 32, township 58 north, range 20 west, located in St. Louis county, and was in possession of the title to it at the time of his death in 1900.

The company claims that Skinner, in common with many other union soldiers, sold the soldiers' scrip given him on account of his honorable discharge, and in July, 1875, signed a blank power of attorney to go with the scrip on account of a ruling of the land department requiring that land be entered on under the soldiers' claim.

The scrip, the company alleges, passed into the hands of James P. Baker of Faribault, Minn., after several transfers, and Mr. Baker entered on the land described. Baker was compelled to use Skinner's name in entering on the land and had the power of attorney filled out.

### OFFERS HIS ALL TO SUFFERERS BY FIRE

SIoux FALLS, S. D., May 4.—In an effort to make restitution so far as lies within his power for the damage done by a recent prairie fire, Charles Donohue, a farmer residing in the southern part of Hand county, has deposited in a bank all the money he can scrape together to be apportioned among the sufferers by the fire, and in addition has offered to give himself up to the authorities if any of the injured parties desire to prosecute him criminally on a charge of having started the fire.

Donohue was burning an old straw stack and had taken the precaution to throw a big firebreak on all sides of the stack prior to touching a match to the straw. But the strong wind blowing at the time carried the sparks to the prairie outside the firebreaks, and in a few minutes a serious prairie fire was sweeping southward toward Buffalo county.

### NORTHWEST IN BRIEF

FARGO, N. D.—A man giving his name as Patrick Haynes and his home as Chicago had both feet cut off here while endeavoring to board a fast west bound Northern Pacific freight train. He said he was a blacksmith and headed for Butte.

WARREN, Minn.—John McGregor of Montreal was bound over to the grand jury charged with burglarizing the Sands mercantile store at Alvarado, Minn. McGregor is said to have stolen a lot of gloves which he was selling to citizens around Alvarado. The gloves did not seem to be stolen from the store, but the investigation of the store found the gloves were found in the store.

GRAND FORKS, N. D.—Judge Templeton sustained the demurrer of Attorney General McCue in the case of Grand Forks county, in which the county seeks to recover \$1,400 paid to the state for the care of an insane patient in the asylum at Jamestown. The demurrer of the attorney general was based on a provision of the law that all actions against the state which are not of a local nature should be instituted in Burleigh county.

### CONCERNING ADVERTISING NO. 9

### TALKING TO 30,000 PEOPLE THROUGH THE TRIBUNE

If you are advertising in The TRIBUNE your message is carried to more than 30,000 people in La Crosse and surrounding territory every day your ad appears. Stop and think, Mr. Advertiser, what this means to you! You don't need any other newspaper to reach the people within coming distance, because The TRIBUNE is the paper that nearly everybody reads, and it reaches them at the end of the day when they have time to read it.

### THERE IS ALWAYS ONE BEST.

In every community and in every line, there is ALWAYS ONE BEST. It may be one best Opera House, or Hotel, or almost any business, but there is always one best.

In the newspaper line, the best newspaper is the one that most people read. They read it because it represents the interests of the general public, publishing all the news without bias, standing boldly for the common good. Having the public confidence, and therefore enjoying the widest circulation, this newspaper becomes the best newspaper for the advertiser as a business proposition, because it takes his ad to the most people, and they read it with the most confidence because of their confidence in the paper that prints it. In La Crosse, the best newspaper is The TRIBUNE.

In placing advertising, there is one best way to do it and one best place for it. That is in the best paper, the paper that will get the best and most lasting results for you.

Do not scatter your shot; concentrate your effort. Place your advertising where it will be read by the greatest number of possible buyers, where it will reach the greatest number of people who will be interested in your proposition, then establish in the minds of the readers the fact that you are going to have an advertisement, if not every day, then on specified days, so that when the readers get the paper on those days they will immediately turn to your announcement to see what you are offering for the next day and days to come.

Get your advertisements in the paper that pays attention to its advertising, that regards its advertisements as news—business news that people want to see. Put your "ads" in the paper that appreciates it, and is just as anxious as you are that any investment that you make in its space will be profitable to you. That is the paper that it pays to advertise in.

If you desire to know anything about the TRIBUNE'S circulation, come in and help yourself. Circulation books are always open for inspection. I will give you my services in preparing copy and aid you in planning a campaign, without any cost to you. Let's get together.

**LEAVES WIFE IN 3 WEEKS.**—Mrs. Lewis was given a divorce from John Lewis in Judge Fruit's court Saturday. After three weeks of married life Lewis packed his trunk and left for parts unknown, leaving her to look out for herself. She is now living near Kendalls.

**SENTENCED FOR THEFT.**—North Vice of Sparta was sentenced by Judge Fruit Saturday to one year in Waupun for stealing \$20 from a friend. The young man pleaded guilty and was sentenced without delay.

**CHIMNEY FIRE.**—A chimney fire at the home of Henry Walters, Tenth and Mississippi street called out department No. 3 about 7:30 Saturday evening. No damage was done.

### SCHOOL OF MUSIC IN ITS NEW HOME

The La Crosse School of Music has moved to its new location in the Edwards flats, 211 South Fifth street. The whole of the second floor, numbering fifteen rooms has been leased by the school and will be used for school purposes. Six of the best apartments were finished expressly for studio and there are none nicer to be found in the city than these. They are well lighted and modern in every way, much taste being shown in the color scheme, the delicately tinted walls and the rich furnishings forming one harmonious whole. Prof. Harry Packman and family have private apartments on one side of the building and Mr. and Mrs. Sherwin occupy rooms on the other. Mrs. Sherwin having the office work in charge.

In January, Fred Lethold took over the management of the school and organized a stock company of which he is president and treasurer, and judging from the increase in business, much credit is due the present management. Starting in January with an enrollment of about 60, the school has at the present time nearly one hundred and twenty pupils and scarcely a week passes that does not add to this number.

Two new departments have recently been added making in all five distinct departments. Miss Abbie L. Becker was engaged in February as teacher of mandolin and guitar and recently Prof. James C. Abdill has been added to the faculty as teacher of dramatic art, voice culture, oratorio and grand opera. The other members of the faculty are well known in La Crosse and musical people are familiar with the professional work of Harry Packman, James R. Kerr, Jacob Reuter, and Miss Eva Baronhill.

Schools of music have come to be a necessity in all large cities and many place smaller than our city have well established schools where the young people can receive the best training under professional teachers at a fraction of the expense necessary to send them away for this instruction. The success which has come to the La Crosse school proves that it is meeting a long-felt want among our musical people.

The school extends a cordial invitation to its many friends and patrons to call and be shown over the new studios. Those interested in any one of the departments will be courteously received at the office and any information desired will be given.

### POPULATION OF COUNTY 42,850

In the annual report of the bureau of labor and industrial statistics La Crosse county is given a population of 42,850 for 1905. There is an acreage of 130,107 of improved farm lands out of a total of 243,624 acres, the total value of which including improvements is \$8,159,943, an increase of nearly 100 per cent over the value in 1905. La Crosse county has a greater improved farm acreage than any of the adjoining counties according to the report.

#### FAREWELL PARTY.

Last Friday evening at the close of the supper at the M. E. church parlors, about thirty of the people of the church repaired to the residence of Mr. and Mrs. Knapp on North Eighth street and bade them a kindly farewell and "Godspeed" to their new home.

Mr. and Mrs. Knapp have been actively associated with the life and work of the First church, and the best wishes of a large circle of friends follow them. Several speeches of interest were listened to, and a social hour was enjoyed. Mr. Knapp will engage in the insurance business in Menominee, Wis.

#### BRIDGE.

Mrs. Dr. Sulter, 222 South Seventh street, was hostess on Saturday afternoon at three tables of bridge.

#### SERVICES AT POOR FARM.

One of the pleasantest services ever held at the county farm was held yesterday afternoon, when the Rev. C. N. Moller, four members of the Episcopal choir, and Prof. Harry Packman, accompanied Mr. and Mrs. J. S. Colman, on their monthly visit to the farm. These services are held once a month, and were started four years ago, under the supervision of Mr. Colman and in connection with the W. C. T. U. work. During the past four years, but few services have been missed. Some months two services have been held, and great credit is due to Mr. and Mrs. Colman for their untiring efforts in this direction. They have been loyally supported by ministers and singers, there being scarcely any of the local musicians who have not some time or other given their talent freely to cheer these "shut-ins." Mr. Moller's talk yesterday was one of extreme helpfulness, and many musical selections were rendered. The farm has recently received a present of a piano, which goes a long way toward making the services more effective, the inmates themselves being highly pleased with the instrument. Those that went out yesterday were: Mr. and Mrs. J. S. Colman, Rev. C. N. Moller, Miss Minnie May, Mrs. E. E. Dow, Mr. Thornbury, Mr. Zoelke, Miss Nellie Manchester, Prof. Harry Packman, Mrs. Lathrop and Mr. Osborne.

#### WEDDING ANNIVERSARY.

Mr. and Mrs. James Holey of 2146 Market street entertained about twenty-four of their friends at dinner Sunday, May 3, it being their tenth wedding anniversary. Mrs. Holey received many useful presents in both tin ware and linen.

Those present were Mr. and Mrs. A. Ristow, and Mrs. E. Scholl from Stoddard, Mr. and Mrs. W. B. Hemphill, John Alexander, Anton Holey, Mr. Joe Smart, Geo. N. Hentges, Reinhold Miller, Vincent Kaerlinsk, Roland Holey, Misses Alta Hemphill, Bertha Bechman, Laura Ash, Hannah Brager, T. Poehling, Lena Braatz, Lila Smart, Alfrida Austad, E. Rogstad, Myrtle Holey, Helen Holey.

#### NOTICE OF APPLICATION TO COUNTY COURT.

State of Wisconsin, County Court, La Crosse County, ss. In Probate. Notice is hereby given that at a regular term of the County Court, to be held in and for said County, at the Court House, in the City of La Crosse, in said County, on the first Tuesday, being the second day of June, A. D. 1908, at ten o'clock a. m., the following matter will be heard and considered, namely:

The application of Lena Schaller, widow, to admit to probate the last will and testament of John Schaller, late of the town of Campbell in said County of La Crosse, deceased, and for the appointment of her, the petitioner, as executrix thereof.

Dated April 24th, 1908.  
By order of the Court,  
JOHN BRINDLEY,  
County Judge.

## AUTOMATIC REFRIGERATORS

The proper preservation of food in the hot weather can only be accomplished in the home by proper refrigeration.

### CIRCULATION DOES THE WORK

The AUTOMATIC SYSTEM fulfills the requirements. The cold air descends in the ice chamber and not in the provision chamber. The warmer air ascending in this chamber, and the flavors of the food will not mix. The circulation is based upon nature's laws. The interior is practically one large compartment, with all parts easy of access.

You, of course, want the best Refrigerator the amount of money you have to spend will buy. Buy an AUTOMATIC and you have the best. A good refrigerator is a great convenience and is also a great saving. A poor one is just the reverse. The AUTOMATIC is a thoroughly good refrigerator. It is honestly made from top to bottom. It is economical in the use of ice. If you haven't seen this wonderful food saver let us urge you to come and see it. Let us show you then you will understand why AUTOMATICS save ice and foods too.

### FRIENDS HELP

St. Paul Park Incident.

"After drinking coffee for breakfast I always felt languid and dull having no ambition to get to my morning duties. Then in about an hour or so a weak, nervous derangement of the heart and stomach would come over me with such force I would frequently have to lie down.

"At other times I had severe headaches; stomach finally became affected and digestion so impaired that I had serious chronic dyspepsia and constipation. A lady, for many years State President of the W. C. T. U., told me she had been greatly benefited by quitting coffee and using Postum Food Coffee; she was troubled for years with asthma. She said it was no cross to quit coffee when she found she could have as delicious an article as Postum.

"Another lady who had been troubled with chronic dyspepsia for years, found immediate relief on ceasing coffee and beginning Postum twice a day. She was wholly cured. Still another friend told me that Postum Food Coffee was a Godsend to her, her heart trouble having been relieved after leaving off coffee and taking on Postum.

"So many such cases came to my notice that I concluded coffee was the cause of my trouble and I quit and took up Postum. I am more than pleased to say that my days of trouble have disappeared. I am well and happy."

### MELROSE BANKER'S DAUGHTER DROWNS

SKIFF CAPSIZED IN DOUGLAS LAKE ON SUNDAY

**YOUNG PEOPLE WERE RISING**

And in Excitement Craft Overturned

—Other Members of the Party Rescued From Death

While a party of young people were boat riding in Douglas Lake, near Melrose, yesterday, the boat capsized and Clara Ringle was drowned. The party consisted of Misses Clara Ringle and Ceha Nelson and Masters Francis Ringlee and Harold James. The girls who were 25 and 20 years of age were in the rear of the boat, while the young boys sat in the forward part of the skiff, causing it to get very low in the water. In some way the boat began to ship water and the girls became excited and in their endeavor to change places the boat was overturned.

The party with the exception of Miss Ringlee was saved, as there were a number of people in the vicinity. Miss Ringlee, however, was the last one to be taken from the water and restoratives were used but in vain, as she was past all human aid.

The deceased was the daughter of a prominent banker in Melrose, and was well known in the village, where she was highly respected.

The funeral will be held Wednesday from the home in Melrose. The body will be taken to Ettrick in Trempealeau county, where the interment will be made.

## START NEW SPARTA-MELROSE RY. SOON

CHARLES NEWLAND OF MELROSE IS MADE PRESIDENT

\$35,000 ADDITIONAL NEEDED

This Will Probably be Raised in Sparta and Melrose and Constructed May Start in August

The directors of the Sparta-Melrose railroad held a meeting at Melrose Saturday and elected Charles Newland of Melrose president to succeed E. S. Cromwell. James Cole of Catawact was re-elected vice president, W. A. Sholes of Melrose secretary, and Attorney Howard Teasdale of Sparta re-elected treasurer.

The company has decided to raise \$17,000 in bonds or private subscription in Melrose, and \$18,000 in Sparta, as \$100,000 is needed and there is on hand only \$65,000.

The directors have decided that the road will not run through Catawact as planned, but will run straight to Sparta, a distance of about 18 miles.

It is expected that the first mile of track will be laid in August.

### LISBON REGICIDES NOT TO BE PUNISHED

LISBON, May 4.—There will be no prosecution for the assassination of the late king and crown prince of Portugal. A few men were killed by the police and soldiers about the royal carriage, but otherwise no one is to suffer for the crime. Portuguese statesmen are rather fearful that their decision will place them in an awkward position before the rest of Europe, as several governments have intimated that they proposed to withdraw their diplomatic representatives if Portugal proposed to wink at the regicides. However, the king's advisers see no other way out of it. The government has found so many men in the highest positions either implicated or suspected of implication that it is deemed unsafe to act against them. Political amnesty will be proclaimed by Manuel when he takes the oath of office.

### AMIR'S RETREAT MAY BE A FOXY COUP

SIMLA, India, May 4.—Sullen but apparently overawed by the powerful British showing, the amir of Afghanistan's troops are retreating slowly from Landi Kotal before which they encamped after their repulse Saturday night in an attempt to seize the blockhouse. The Asiatics were not routed by any means and it is not certain they are not attempting to draw the English into the country where their cavalry and cannon would be at a disadvantage. So apprehensive is Gen. Sir James Willcocks of such an attempt that he is doing no more than to keep his vanguard in touch with the natives, slowly pressing them backward.

### MERRY WIDOW HAT CUTS PASTOR'S FACE

MINNEAPOLIS, Minn., May 4.—Rev. G. L. Morrell, pastor of the Peoples' church, was forced to appear in the pulpit Sunday with one eye bandaged and his sermon unprepared as a result of an encounter with a "Merry Widow Hat." The preacher was homeward bound Saturday to prepare his sermon when he was badly cut across the right eye by the brim of a hat worn by a girl who rushed by him to board a street car. A doctor cauterized the wound because he said the black dye of the hat was poisonous.

### ILLINOIS SOLONS AT CRISIS TODAY

SPRINGFIELD, Ills., May 4.—The Illinois senate will decide whether the forty-fifth assembly goes ahead with legislation tomorrow or adjourns sine die after being in session since January 1st, 1907. If the senate isn't disposed to remain, the house can do nothing. If senate does remain an exciting session is expected. The assumption of the asylum probe question will be only a starter. An attempt to repeal the local option law, and enact a Sunday Saloon bill will stir up a disturbance.

### SHOT IN A SALOON.

PORTAGE, Wis., May 4.—William Fuller, of the firm of Michel & Fuller, proprietors of the Turf Exchange, one of the leading saloons of this city, was shot and perhaps fatally wounded by Bert Campbell, a farmer residing in Caledonia. Campbell, who had been about town all day, drinking considerably, flourished a revolver in several places. Fuller and Campbell were standing at the bar when Campbell, apparently without cause, drew a revolver, shooting twice, the first ball going through the floor in front of the bar and the second taking effect in Fuller's chest.

### ROYAL WEDDING.

ST. PETERSBURG, May 4.—Prince Wilhelm of Sweden and Grand Duchess Maria Pavlovna were married in the chapel at the Tsarskoe-Selo palace in the presence of a brilliant gathering of representatives of nearly all the European governments and many high dignitaries of the Russian empire.

F. W. Harrison, traffic manager of the Hellemann Brewing company, returned to his desk this morning after recovering from a serious illness.

## GET A CASE OF DIAPEPSIN AND RID YOURSELF OF INDIGESTION

IF YOU EVER GET A CASE OF THE 22 GRAIN TRIANGLES YOU WILL SEE HOW LONG YOU SUFFERED UNNECESSARILY.

Every family here ought to keep a case of Diapepsin in the house as any one of you may have an attack of Indigestion or Stomach trouble at any time day or night.

This harmless preparation is prepared in the form of 22-grain Triangles, and tastes like candy while you are eating them, but they will digest anything you can eat and overcome a sour stomach five minutes afterwards.

If your meals don't tempt you or what little you do eat seems to fill you, or if it lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapepsin and take one triangle after supper tonight and see five minutes after how it feels to be rid of stomach trouble.

There will be no sour risings, no belching of undigested food mixed with acid, no explosions of stomach gas, or heartburn, or fullness of heavy feeling in the stomach. Nausea

Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and besides, there will be no fermentation of food left over in the stomach to putrefy your breath with nauseous odors.

Ask your Pharmacist to show you the formula plainly printed on these 50-cent cases; then you will readily understand why stomach trouble or indigestion must vanish like snow before the blazing sun.

Diapepsin is a certain cure for all your stomach misery. Each triangle contains just the elements which a strong, healthy stomach has, and has proven by test to digest alone 3,000 grains of food. Diapepsin will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you whenever you decide you would rather have a healthy stomach and perfect Digestive system.

A 50-cent case is usually more than sufficient to cure a case of Dyspepsia and leave some around the house, should other ones of the family need wholesome and safe treatment after eating something that doesn't agree with them.

### PLAN TO MURDER LORD KETCHNER

CALCUTTA, May 4.—A plot to assassinate Lord Kitchner, commander of British military forces in India, is reported to have been included in a bomb throwing conspiracy uncovered here. A genuine revolution is said to have been planned, and the arrest of natives high in financial and official circles is expected.

### LA CROSSE MEN TRY FOR TARIFF OFFICE

A civil service examination will be held at Madison, in Carnegie hall, on May 16, to pass upon the qualifications of a tariff clerk for the state railway commission. There will be three competitors from La Crosse: J. W. Abell, traffic manager for the Hellemann Brewing company; William West, inbound rate clerk at the Milwaukee; Mark Livingston, bill clerk at the Northwestern. The office pays \$1,200 a year.

### MOLLER PREACHES AT POOR FARM

Services at the poor farm yesterday were conducted by the Rev. C. N. Moller of Christ church. A quartet consisting of Miss Minnie May, Mrs. E. E. Dow, Mr. Otto Zuelke and Mr. J. E. Thornbury rendered several selections under the direction of Prof. Harry Packman, which were much appreciated.

### REV. MCKEE READS PAPER ON SERMONS

At the regular monthly meeting of the Pastors' union at the Y. M. C. A. this morning, Rev. S. L. McKee of the Presbyterian church of West Salem gave an interesting paper on the subject "Making a Sermon." Other minor work was taken up.

By the score of 9 to 1 the La Crosse Athletics defeated the Houston professional team at Houston yesterday. "Chut" Hohn pitched for the Athletics and allowed but three hits. The hitting and team work of the local team was a feature. Score: La Crosse .....40120101\*—9 8 1 Houston .....00010000—1 3 3 Batteries—Kohn and Wells; Miller and Peacock.

Next Sunday the Athletics play the Caledonia team at Caledonia.

### SONS OF REST WIN.

In Roth's league yesterday afternoon, The Sons of Rest defeated the "Business Men's" team by the overwhelming score of 24 to 12. James Cleveland was in the box during the first five innings for the Sons of Rest and allowed but one scratch hit.

### FISH QUILTS MISSOURI PACIFIC

NEW YORK, May 4.—Stuyvesant Fish has resigned as a member of the executive committee and director of the Missouri Pacific railroad. In explanation it is stated by friends that he entered the board at the personal solicitation of George Gould, and he has found his time so fully occupied by other duties he has no time to spare for the Missouri Pacific interests.

### ARBITRATE CAR STRIKE CLEVELAND, Ohio, May 4.—The executive committee of the street railway men's union will meet today to name an attorney to represent it on the commission which will pass upon the legality of its claims against the "Threefer" car lines, President Dupont, of the company, will name a second attorney to represent the company, and the third man will be chosen by these two or by the state board of arbitration.

CLEVELAND NOT DEAD. LAKEWOOD, N. J., May 4.—A rumor circulated today that Cleveland was dead was positively denied at Lakewood hotel, where the former executive has been ill for several weeks. No statement as to his condition was forthcoming.

## LAW SUIT PROBES LA FOLLETTE PLEA

E. A. WHITTIER SAYS INS. COMPANIES CAUSED PANIC

TO EXAMINE THE BIG GUNS

Ryan, Morton and Others May Have to Tell What They Know About 1907 "Stringency"

NEW YORK, May 4.—Allegations in his complaint in a damage suit against the Washington Life Insurance company by E. A. Whittier, lately New Jersey state agent for the company, will if proven substantiate the charges made by Senator La Follette in his Aldrich bill speech, to the effect that the life insurance companies willfully helped precipitate the 1907 panic by conspiring to cause a shortage of funds by withdrawing all insurance funds from deposit outside New York city. The allegations include all insurance companies in a general way. The clause in Whittier's complaint affecting the Washington Life, after reciting that Harry Payne Whitney, Thomas F. Ryan and Levi P. Morton own the company, which they run through a "dummy" directorate, and that they did withdraw funds from all banks, says:

All Same La Follette. "This order was not made for the good of the company, but was issued by its officers at the direction of Ryan, Whitney and Morton in collaboration with other unpatriotic and wicked persons in conspiracy with said Ryan, Whitney and Morton to procure a dearth of moneys in other parts of the country than in the financial district of New York in order that a financial panic would be produced to bring into contumely and disgrace the administration of his excellency, Theodore Roosevelt, as president of the United States; procure a 'bear' market in Wall street; bring about commercial panic and unhappiness to the majority of the American people; that dishonest commercial methods were the price or rather the pre-requisite to the commercial prosperity and economic welfare of the American people.

Must Be Examined. Mr. Atkinson, Mr. Whittier's counsel, issued notice that he will apply for a commission to take the testimony of Ryan, Whitney and Morton and several other men connected with financial institutions and it is believed that their testimony, given under oath, will throw considerable light on the causes which led up to the October panic.

### LYRIC THEATRE'S FINE PROGRAM

The moving picture show at the Lyric continues to be one of the most popular places in town, as is evidenced by the large audiences nightly. These pictures are more than ordinarily interesting, and the subjects include all sorts of places and conditions, humorous and pathetic. One of the leading pictures this week is one entitled "Sports of the Navy," in which it is shown what our "jacksies" have to do in order to make themselves active, strong and resourceful. This is most interesting and the educational value of such a picture cannot be overlooked. Numerous other views, all of the latest films, are also shown. Starting tonight, Mr. Milton Kerr, who has been delighting audiences at the Bijou for the past few months, will be the soloist, and will render two or three illustrated songs at each performance. Patrons are assured of two hours of excellent entertainment at the Lyric theatre.

### VIROQUA DEFEATED; ST THOMAS TOMORROW

The Colts bested the Vernon County baseball team again yesterday, taking them in town with the same score by which the Regulars defeated the Dubuque team. Baillies was on the firing line for the Colts and allowed but a few scattered hits. The game was a repetition of that played here, the Colts playing a hit and run game, not ceasing until they had secured 15 tallies. The hitting of Heppel and Moore was a feature of the game.

The lineup for the Colts was: Baillies, pitcher; Killian, catcher; Burgeols, first base; Bond, second base; Moore, third base; Heppel, right field; Shields, center field, and Flynn, left field.

Barlow and Johnson was the battery for the Viroqua team.

Pauke, the Indian, was given his release Saturday and has returned to his home in Nebraska. St. Thomas Tomorrow.

### JOE WEBER GETS YEAR FOR THEFT

Joe Weber, son of "Pop Corn Joe," was sentenced to one year in the Green Bay reformatory Saturday afternoon by Judge Brindley on the charge of entering the restaurant of Nate Jarvis, 208 1/2 South Third street on the morning of April 30 and stealing about \$5.20 from the cash register.

Weber gained entrance into the restaurant through the rear door of the restaurant and prying open the cash drawer, helped himself to all the available cash. He was arrested on suspicion and later confessed to the theft.

## SCROFULA AN INHERITANCE OF DISEASE AND SUFFERING

No truth is more forcibly manifested in physical life than the old saying "like begets like;" for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause and cures the disease, but it supplies the weak, anaemic blood with the healthful properties it is in need of. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge.

## OPEN SECRETS.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so published broadcast and openly to the whole world, a full and complete list of the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken the many users of his medicines into his full confidence. Thus too he has absolutely and completely removed his medicines from among secret nostrums of doubtful merits, and made them REMEDIES OF KNOWN COMPOSITION.

Dr Pierce's medicines are now in a class all by themselves—being absolutely and in every sense Non-secret.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this booklet it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, overworked, "run-down," nervous and debilitated women were employed, long years ago by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

As made up by improved and exact processes, and with the use of specially designed chemical apparatus, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. The exact proportion of the several ingredients used in these medicines, as well as the working formula and peculiar processes, apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may not be infringed and trespassed upon by unprincipled imitators and those who may be piratically inclined.

Dr. John Fyfe, of Saugatuck, Conn., Editor of the Department of Therapeutics in THE ECLECTIC REVIEW says of Unicorn root (*Helonias Dioica*) one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine."

"Helonias more fully answers the above purposes than any other drug with which I am acquainted." In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent.

"The following are among the leading indications for Helonias: Pain or aching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the kidneys; menorrhagia, ("flooding") due to a weakened condition of the reproductive system; amenorrhoea, arising from or accompanying an abnormal condition of the digestive organs and an anemic (thin blood) habit; dragging sensation in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no invalid woman can do better than take Dr. Pierce's Favorite Prescription, which is rich in all the medicinal properties of Unicorn root, or Helonias.

# For Genuine Baked Beans Get

# HEINZ

Here's the fact we are hammering on; HEINZ Beans are BAKED—not merely steamed or boiled; but actually baked in dry-heated ovens, after being parboiled just enough to loosen the skin and slightly soften them.

They are mealy and tender; they are mellow and smooth—each bean is absolutely uniform in its goodness, without even a suggestion of that soggy which any other method of cooking will produce. Why then, after knowing this, eat anything but HEINZ baked beans?

Three kinds: Plain Pork and Beans (Boston Style); Vegetarian—without Pork; and With Tomato Sauce.

In the two latter the beans are baked with a rich, delicately-spiced sauce made from red-ripe tomatoes, being blended in such a way that the piquant flavor penetrates the entire bean.

Piping hot, fresh from the ovens, HEINZ Baked Beans are sealed in HEINZ Improved Tins (sterilized before and after filling) bringing the flavor and purity unaltered to your table.

Prices 10c, 15c and 20c, according to size.

## MERRY WIDOW HAT IS TROUBLESOME

JANESVILLE, Wis., May 4.—There was a lively time on at the West Side theatre because an east side girl refused to remove her merry widow hat.

The creation was of such proportion that it obstructed the view of at least twenty patrons, all of whom said nothing until the close of the first act.

Then the trouble commenced. A man whose neck was nearly out of joint from trying to get a side view of the stage, politely asked the young lady to remove her hat. As the girl was deaf to his request the theatre usher was called in and the girl given her choice of either removing the hat or getting out.

She removed it and the show went on.

## GRADE CROSSINGS TO BE ADOLISHED

MILWAUKEE, Wis., May 4.—Within ninety days work will begin to abolish the grade crossings in the northwestern portion of the city along the Milwaukee road, according to a fortnight promise made by Mayor Rose to the citizens of the Twenty-second ward at their celebration of the opening of the extension of the North avenue street car service from Thirtieth street to Thirty-ninth.

This important improvement, one that has agitated the people in that district for years, has now come out of the state of conjecture to one of actual operation according to the mayor's assertion.

EAU CLAIRE, Wis., May 4.—Hans C. Olufson, a night watchman, is congratulating himself on the outcome of a peculiar accident.

Five weeks ago, for his lunch, he partook of some pickled peaches, and while eating them thought he swallowed something a trifle hard and awkward. Later he had a pain in his head and neck and went to one or two physicians. They diagnosed the case in many ways, but Hans found no relief.

The weeks went by and the other day he was pointing out a place on his neck to Julius Anderson, a machinist, who went to work and extracted a good sized sewing needle. Mr. Anderson for this and several other acts has earned the title of "doc," and this his friends are now calling him.

Mr. Olufson still likes pickled peaches, but prefers them without the hardware. From the feeling in his head he thinks the needle made a complete circuit before coming to the surface.

MANITOWOC, Wis., May 4.—Advancing the theory that too frequent socials, even in the church, and too much attention paid to this feature of the organization tended to stimulate in members an appetite for amusement that may lead them to seek pleasures outside, Mrs. John Springer, a returned missionary from Africa who was the principal speaker at the session of the Oshkosh district convention of the Epworth league in this city, sounded a warning cry and admonished the league to heed it and pay less attention to society and more to the religious work of the church.

The address created no small sensation, especially when Mrs. Springer declared that at the present time there were many societies affiliated with the league which had instilled in their members this desire for pleasure that was a menace to the organization as a whole.

### WANT TO RETAIN OLD CLASS RUSH

MADISON, Wis., May 4.—The action of the student conference committee at the university in adopting a freshman-sophomore track and field meet to replace the annual rush has aroused much comment and criticism among the student body, and it is possible that a reconsideration will be proposed at the next meeting on Tuesday afternoon. The two student members of the committee appointed to recommend an innovation in the annual contest, Oert
